3. Use of Services

Your access to and use of our Services are subject to certain terms and conditions, which are set forth in our Terms of Use.

4. Collection of Information

We collect information you provide, such as when you email us, sign up through our Site, or submit information through our Site. We may collect, but are not limited to collecting, the following information: your name, email address, mailing address, phone number, sex, employer name, job title, date of birth, and issues we can help you with.

4.2 Children

Company does not knowingly collect or maintain personally identifiable information from persons under 18 years of age without verifiable parental consent, and no part of the Services are directed at persons under 18. If you are under 18 years of age, then please do not use the Services. If Company learns that personally identifiable information of persons less than 18 years of age has been collected without verifiable parental consent, then Company will take the

appropriate steps to delete this information. To make such a request, please contact us at support@mysocialpods.com.

4.3 Information We Collect from Your Use of the Services

We collect information about you when you use our Site, including, but not limited to the following:

- **Account Information.** When you register with us using the Site to create an account and become a registered user, you will need to provide us with certain personally identifiable information to complete the registration, including information that can be used to contact or identify you and credit card or other billing information in some cases.
- **Device Information.** We may automatically collect certain information about the computer or devices (including mobile devices) you use to access the Services. For example, we may collect and analyze information such as (a) IP addresses, geolocation information (as described in the next section below), unique device identifiers and other information about your mobile phone or other mobile device(s), browser types, browser language, operating system, the state or country from which you accessed the Services; and (b) information related to the ways in which you interact with the Services, such as: referring and exit pages and URLs, platform type, the number of clicks, domain names, landing pages, pages and content viewed and the order of those pages, the amount of time spent on particular pages, the date and time you used the Services, the frequency of your use of the Services, error logs, and other similar information. As described further below, we may use third-party analytics providers and technologies, including cookies and similar tools, to assist in collecting this information.
- **Location Information.** We may collect different types of information about your location, including general information (e.g., IP address, zip code) and more specific information (e.g., GPS-based functionality on mobile devices used to access the Services), and may use that information to customize the Services with location-based information, advertising, and features. For example, if your IP address indicates an origin in Los Angeles, California, the Services may be customized with Los Angeles-specific information and advertisements. In order to do this, your location information may be shared with our agents, vendors or advertisers. If you access the Services through a mobile device and you do not want your device to provide us with location-tracking information, you can disable the GPS or other location-tracking functions on your device, provided your device allows you to do this. See your device manufacturer's instructions for further details.
- **Cookies and Other Electronic Technologies.** We may use the tools outlined below in order to better understand users. As we adopt additional technologies, we may also gather additional information through other methods.
 - **Cookies:** "Cookies" are small computer files transferred to your computing device that contain information such as user ID, user preferences, lists of pages visited and activities conducted while using the Services. We use Cookies to help us improve or tailor the Services by tracking your navigation habits, storing your authentication status so you do not have to re-enter your credentials each time you use the Services,

customizing your experience with the Services, and for analytics and fraud prevention.

We may use a type of advertising commonly known as interest-based or online behavioral advertising. This means that some of our business partners use Cookies to display Company ads on other websites and services based on information about your use of the Services and on your interests (as inferred from your online activity). Other Cookies used by our business partners may collect information when you use the Services, such as the IP address, mobile device ID, operating system, browser, web page interactions, the geographic location of your internet service provider, and demographic information such as sex and age range. These Cookies help Company learn more about our users' demographics and internet behaviors.

For more information on cookies, visit <http://www.allaboutcookies.org>.

- **Web Beacons:** “Web Beacons” (a.k.a. clear GIFs or pixel tags) are tiny graphic image files imbedded invisibly in a web page or email that may be used to collect anonymous information about your use of our Services, the websites of selected advertisers, and the emails, special promotions or newsletters that we send you. The information collected by Web Beacons allows us to analyze how many people are using the Services, using the selected advertisers' websites or opening our emails, and for what purpose, and also allows us to enhance our interest-based advertising.
- **Website Analytics:** We may use third-party website analytics services in connection with the website, including, for example, to register mouse clicks, mouse movements, scrolling activity and text that you type into the website or mobile application. These website analytics services generally do not collect personal information unless you voluntarily provide it and generally do not track your browsing habits across websites which do not use their services. We use the information collected from these services to help make the website easier to use.
- **Mobile Device Identifiers:** Mobile device identifiers are data stored on your mobile device that may track mobile device and data and activities occurring on and through it, as well as the applications installed on it. Mobile device identifiers enable collection of personal information (such as media access control, address and location) and traffic data. Mobile device identifiers help Company learn more about our users' demographics and internet behaviors.

4.4 Information from Third Parties

We may obtain additional information about you from third parties such as marketers, partners, researchers, and others. We may combine information that we collect from you with information about you that we obtain from such third parties and information derived from any other subscription, product, or service we provide.

- With your consent.

We may also share aggregated, non-personally identifiable information with third parties.

7. Opt-In Policy

When you supply us with personally identifiable information in connection with your use of the Services, you may be asked to indicate whether you are interested in receiving information from us about our product and service offerings and if you would like us to share personally identifiable information about you with our affiliates, partners or other third parties for their marketing purposes. If you do choose to opt-in, you will receive such communications and/or we will share your information in accordance with your “opt-in” consent.

You may, of course, choose not to receive additional marketing information from us or choose not to allow our sharing of your personally identifiable information as follows: At any time, you can follow a link provided in our marketing-related email messages (but excluding e-commerce confirmations and other administrative emails) to opt out from receiving such communications; or at any time, you can contact us in accordance with the “Contact Us” section below to opt out from receiving such communications.

If you decide to contact us to change your contact preferences to opt out of receiving communications from us, please specify clearly which of the following choices you are opting

out of: (a) Receiving marketing communications from us; (b) Allowing us to share personally identifiable information about you with our affiliates and partners for their marketing purposes; and/or (c) Allowing us to share personally identifiable information about you with other third parties for their marketing purposes.

We will endeavor to implement your requested change as soon as reasonably practicable after receiving your request. Please be aware that your requested change will not be effective until we implement such change. Please note that if you choose not to allow our sharing of your personally identifiable information, we are not responsible for removing your personally identifiable information from the databases of third parties with which we have already shared your personally identifiable information as of the date that we implement your request. If you wish to cease receiving marketing-related e-mails from these third parties, please contact them directly or utilize any opt-out mechanisms in their privacy policies or marketing-related e-mails.

Please note that if you do opt-out of receiving marketing-related messages from us, we may still send you important administrative messages. You cannot opt-out from receiving these administrative messages. We reserve the right, from time to time, to contact former customers or users of the Services for administrative purposes or in order to comply with applicable laws, rules or regulations.

8. Social Media and Third Party Platforms

Certain sections or functionalities on our Services may permit you to share information on third party social media sites or platforms such as Facebook, Instagram, LinkedIn, Twitter or other similar sites (collectively, “Social Media Sites”). Company does not own or control such Social Media Sites, and posting your information on Social Media Sites is subject to the third party’s Online Privacy Policy and other legal terms, which may not provide privacy protections with which you agree. Company is not responsible for any act or omission of any Social Media Site, nor are we responsible for the consequences of your choosing to share your information on Social Media Sites.

9. Security

We take reasonable measures, including administrative, technical, and physical safeguards, to help protect personal information from loss, theft, misuse, unauthorized access, disclosure, alteration, and destruction. Unfortunately, no data transmission over the Internet can be guaranteed to be 100% secure. You may update or correct information about yourself at any time or by emailing us at support@mysocialpods.com.

10.2 Cookies

Most web browsers are set to accept cookies by default. If you prefer, you can usually choose to set your browser to remove or reject cookies; however, our Services may not function properly if you do so.

10.3 Options for Opting out of Cookies and Mobile Device Identifiers

If you are interested in more information about interest-based advertising and how you can generally control cookies from being put on your computer to deliver tailored advertising, you may visit the Network Advertising Initiative's Consumer Opt-Out link, the Digital Advertising Alliance's Consumer Opt-Out link or TRUSTe's Advertising Choices Page to opt-out of receiving tailored advertising from companies that participate in those programs.

Please note that even after opting out of interest-based advertising, you may still see Company's advertisements that are not interest-based (i.e., not targeted toward you). Also, opting out does not mean that Company is no longer using its tracking tools—Company still may collect information about your use of the Services even after you have opted out of interest-based advertisements and may still serve advertisements to you via the Services based on information it collects via the Services.
